SUMMARY

Creative and detail-oriented professional with strong analytical, organizational, and communication skills and a strong interest in cybersecurity and digital safety. I have experience working in online environments, monitoring digital content, and identifying potential risks while ensuring compliance with policies and security standards. I am comfortable analyzing large amounts of information, following procedures, and working in fast-paced environments that require accuracy and responsibility. I bring a proactive mindset, reliability, and strong problem-solving abilities supported by my academic background in Telecommunication and a Master's degree in Cybersecurity.
